

INSPECT • TRACK • KNOW

ELECTRONIC FLEET MANAGEMENT FOR UTILITIES

KEEPING YOUR FLEET OPERATIONAL: EVERY PIECE OF EQUIPMENT MATTERS

From digger derricks to backhoes, utility fleets operate and maintain a lot of vehicles and equipment that are crucial for "taking care of business." It is a daily challenge to ensure pre- and post-trip inspections are performed accurately, the locations of all your vehicles are known and repairs are conducted cost-effectively in a timely manner.

- **Inspection and Repair** - Automates and improves many of the tasks still done manually.
- **Real-Time Vehicle Tracking and Diagnostics** - Ensures driver safety and efficiency and protects expensive equipment.
- **Intelligent Navigation and Guidance** - Improves route management and communications.
- **Customer Support** - Provides the kind of information you need, instantly, to answer questions and adjust routes.

EVIR®: THE ONLY VERIFIED VISUAL INSPECTION SYSTEM

Zonar offers the only Electronic Vehicle Inspection Report (EVIR) system that verifies pre- and post-trip inspections are performed accurately. It is easy to use, identifies defects faster and more reliably and speeds vehicle repair.

- **Labor** - Time to perform required pre- and post-trip inspections is cut in half.
- **Utilization** - Automated defect reporting speeds repairs and reduces on-road breakdowns.
- **Compliance** - DOT audits are straightforward and compliance is as simple as standard reports.

The instant reporting and alerting of noted defects, updating of engine and PTO hours as well as customizing required ANSI aerial inspections help keep your fleet operational and in compliance.

LOCATE EQUIPMENT INSTANTLY: ANYWHERE, ANYTIME

Zonar is the first to provide a next generation GPS solution, which includes trip-level metrics and a GPS time card. It's a high return platform that fills the gap left by old-fashioned GPS tracking applications. It comes packaged as one easy-to-install device, at an unbelievable price and provided by people who treat you right. The savings are substantial.

- **Visibility** - Automatic, accurate performance intelligence easily identifies new areas for savings.
- **Fuel** - Reduce unscheduled stops, speeding and idling. Fuel savings are dramatic.
- **Taxes** - Accurate off-road mileage and out-of-state calculations save on taxes and expedite audits.
- **Alerts** - Exception-based, right-time alerts empower you to affect the outcome and avoid expense.

UTILITIES GAIN NEW EFFICIENCIES AND SAVINGS

Zonar provides a comprehensive fleet management system. It includes the groundbreaking EVIR, our next generation GPS platform and the web-based data management software Ground Traffic Control™. Utility fleets have a new way to experience measurable savings in the areas of driver and vehicle performance, maintenance and regulatory compliance. Zonar's fleet management system provides the real-time data you need to Inspect, Track and Know.

"In addition to pre- and post-trip inspections, we were able to integrate other regulatory and annual inspections like boom check and man-in-basket. This has made achieving compliance easy."

Kim Hodges
Maintenance Director
Montana-Dakota Utilities

APPLICABLE PRODUCTS

EVIR® - ELECTRONIC VEHICLE INSPECTION REPORT

- Automates and verifies inspections, easily
- Improves maintenance and speeds repairs, measurably
- Drivers like it, really

V2J™ - HIGH-DEFINITION GPS + VEHICLE DIAGNOSTICS SYSTEM

- Next generation GPS + real-time vehicle diagnostics
- All in one device equips new + older vehicles
- Operations improvements + preventive maintenance

GROUND TRAFFIC CONTROL™ - WEB-BASED DATA MANAGEMENT SOFTWARE

- Real-time visibility into operations from anywhere
- Instant alerts provided with web-based solution
- Idle time and fuel costs reduced for big savings

ZING™ - ZONAR INTELLIGENT NAVIGATION & GUIDANCE

- Dispatch and route management software
- Two-way messaging
- Garmin® interface

"Zonar has significantly increased our operational and fleet efficiency. We have seen a significant drop in over the road breakdowns and our mechanics have been able to service more vehicles with increased communications between departments. Zonar has also allowed us to monitor equipment utilization which helps tremendously with allocation and billing information."

Mike Murray
Senior VP of Equipment
PAR Electrical Contractors

ZONAR: IT PAYS TO HAVE THE RIGHT FLEET MANAGEMENT PARTNER

Zonar provides electronic fleet inspection, tracking and operations solutions for public and private fleets. Our products are effective, driven by customer satisfaction and affordable by design. We've made it our business to do right by our customers. **You will notice the difference.**
