

GROUND TRAFFIC CONTROL®

KNOW

Your fleet's
locations and
actions

MONITOR

Your fleet
anytime and
anywhere

RUN

Time-stamped
reports and
receive alerts

MANAGE

A single asset
or your
entire fleet

Your fleet at your fingertips

[Ground Traffic Control®](#) will provide your organization with the most accessible real-time picture of its fleet operations. With an unlimited number of users and 24/7 access from any computer, tablet, or smartphone with a web browser, Ground Traffic Control® is the most robust web portal package on the market. All this power for tracking, reporting, and easy exporting of fleet data is included with your Zonar service.

Monitor the field from anywhere

Our web-based software allows back-office management to see vehicle speeds, idle times and geo-fence entry at any time, from anywhere. We make it easy to coordinate your workforce with actionable data organized in one accessible location.

Entire fleet or single asset reporting

Ground Traffic Control® comes pre-built with macro-to-micro reporting capabilities. Calculate overall fleet mileage and asset paths - including each stop and start - and much more.

Features and Capabilities

- Map every turn of the key, every stop and start, and all activity
- Supervise each driver's speed, path, safety and idling
- Customize reports, alerts and dashboards for each user's preferences
- Ensure maximum safety, transparency, and accountability
- Automate tasks that were once a burden on drivers, dispatchers and administrative staff
- Integrate with third-party systems using our open API
