

Comprehensive FMCSA Self-Certified ELD Solution. Third-party Validated by Annette Sandberg, former FMCSA Administrator.

**PREVENT**  
costly violations with preemptive alerts

**ENSURE**  
compliance with the latest laws

**AUTOMATE**  
logs and HOS reporting

**REDUCE**  
errors and the risk of tampering

**Protection for Drivers**

Zonar Logs™—Zonar’s Hours of Service application—ensures drivers are operating within the limits of safety and complying with the ELD (Electronic Logging Device) mandate. Designed around the U.S. Federal Motor Carrier Safety Administration (FMCSA) regulations, Zonar’s ELD solution has completed end-to-end testing with FMCSA, successfully transmitting log data while roadside to the eRODS system that state and federal law enforcement members use. Additionally, Zonar Logs has received independent 3rd party validation from industry veteran Annette Sandberg, former FMCSA administrator, and meets the FMCSA self-certification requirement.

**User Friendly and Intuitive**

Drivers use the Zonar tablet to easily view available hours, update duty status and electronically certify and submit Hours of Service (HOS) records. Zonar Logs Roadside View™ is a feature designed to display driver logs in an easy manner for law enforcement during a commercial vehicle inspection. Back-office view and Roadside View display information uniformly which facilitates easy conversation between driver and dispatch.

**Alert Drivers of Pending Violations**

When drivers are approaching hours of service limits, an alert is activated one-hour prior both in-cab and within Ground Traffic Control. These alerts will help alleviate worry about costly violations.

## Automated and Tamper-Resistant

Zonar Logs automatically tracks drive time and allows company management to view driver logs by day, week and month. Within Ground Traffic Control, each driver's time can be monitored, printed or easily emailed should law enforcement require.

## Compliance Services

In the transportation industry, compliance and safety programs are paramount for your success. To support you in these endeavors, Zonar has a dedicated team of compliance experts with decades of experience in transportation. If you have any questions about current or proposed industry regulations, feel free to contact us for a complimentary consultation.

## Customer Care

At Zonar, the care we provide our customers is the most important service we offer. Our U.S.-based Customer Care centers are available to you 24/7/365 to answer simple questions or help you solve complex problems. Simply stated, we call it "Customer Care" because we truly do care.

### Need to get up to speed quickly on new Electronic Logging Device (ELD) Regulations? Let Zonar help!

Visit [www.zonarsystems.com/eld](http://www.zonarsystems.com/eld) for simple summaries of the ELD basics you must know and timelines involved. We're happy to provide complimentary insights into current and upcoming regulations to get you started on the road to compliance.
