HoS Compliance

The [Samsung Galaxy Tab E](#) comes with [Zonar Logs™](#), an easy-to-use Hours of Service (HoS) app that tracks drive time and provides a verified record of driver logs for law enforcement.

Plus, our full-service fleet management solution, [Ground Traffic Control](#), also helps prevent HoS violations by alerting drivers before the violation is even committed.

Preconfigured for Ease

The Tab E lets you focus on managing your vehicle or fleet instead of manage your device. It comes pre-configured and loaded with the software and applications you need—without the hassle you don't.

Zonar Third Party Apps

Expand your drivers' and fleet manager's abilities with access to a library of Zonar Trusted Apps. These third-party apps have already been tested and found compatible with Zonar solutions.

U.S. based customer support

At Zonar, the care we provide our customers is the most important service we offer. Our customer service centers are available to you from the start to help you with installation, training and beyond. Contact our U.S. based call centers 24/7/365 with anything from a simple question to a complex problem. When you need us, we are here.
