

Dock it like it's locked—in place.

Outfit your Samsung devices with a best-in-every-class RAM dock that changes the game. RAM Mounts offers rugged, reliable, versatile docking solutions that keep your tablet and hardware devices securely mounted and easily accessible.

Once that device is docked, it's not moving until someone undocks it. But drivers can still use the device's full range of features. Drivers are better able to use Zonar enterprise tablet solutions with more confidence, knowing that their tablet is ready for what the day brings.

Enhance productivity, improve safety, and optimize overall performance with device stability that doesn't sacrifice usability.

Durable

RAM docks are built to resist wear, tear, corrosion and extreme conditions.

Secure

Devices remain stable and accessible during transit, reducing the risk of damage.

Connected

Powered docks keep devices charged and ready for use, ensuring seamless operation.

Customizable

Thousands of interchangeable components support tailored solutions to meet your needs.

Meet the RAM EZ-Roll'r™, built to go the distance.

Included in the Zonar Samsung and RAM package, the RAM EZ-Roll'r dock is designed to meet the demands of today's demanding industries.

- Student transportation
- Freight
- Transit
- Construction
- Utilities
- Other on- and off-highway operations

The RAM EZ-Roll'r connectors are designed and built for wear-and-tear. GDS® pogo pins provide power and data sync capabilities, and they're designed to withstand repeated use without degrading.

Keep sticky fingers from stealing.

The RAM EZ-Roll'r locking dock prevents theft and unauthorized access. Each dock has a universal key that simplifies locking and reduces the need for multiple keys. Every fleet manager's dream, especially when a key is lost or misplaced.

Protect tablets with military grade-drop protection.

Add the RAM Skin™, a form-fitting sleeve custom tailored to the Samsung Tab Active5 and Active3. The skin comes ready to add a hand strap for performing out-of-vehicle tasks, such as Zonar EVIR® inspections.

Key Features

- Form-fit powered dock
- Fits Samsung Galaxy Tab Active5 & Tab Active3
- Locking mechanism
- Compatible with Samsung OEM skin
- Supports RAM Skin & hand strap
- Access to speakers, mics & headphone jack while device is docked
- 3-year warranty
